

## Multimeter MD-300

Order code: M3216

### THE MOST IMPORTANT PARAMETERS

| Parameter             | Value                |
|-----------------------|----------------------|
| range selection       | automatic            |
| AC voltage            | 2-600 V              |
| AC current            | 200 $\mu$ A - 200 mA |
| DC voltage            | 200 mV - 600 V       |
| DC current            | 200 $\mu$ A - 200 mA |
| electrical resistance | 200 Ohm - 20 MOhm    |
| circuit continuity    | yes                  |

### OTHER PARAMETERS

| Parameter                        | Value                             |
|----------------------------------|-----------------------------------|
| diode test                       | yes                               |
| transistor test                  | no                                |
| non-contact AC voltage detection | no                                |
| contact AC voltage detection     | no                                |
| battery test                     | no                                |
| temperature measurement          | no                                |
| max. value hold                  | yes                               |
| Data hold mode                   | yes                               |
| auto power off                   | yes                               |
| screen display                   | 3 1/2 digit                       |
| backlight display                | yes                               |
| low battery indication           | yes                               |
| clamp multimeter                 | no                                |
| dimensions                       | 44 x 38 x 230 mm                  |
| included                         | battery, manual, measurement tips |
| power source                     | 2x 1.5 V AAA (included)           |
| packaging                        | 1 pc, blister                     |
