## Rechargeable SMD LED + LED Work Light, P4538, 700 lm, 1200mAh

Order code: P4538

### THE MOST IMPORTANT PARAMETERS

| Parameter             | Value  |
|-----------------------|--------|
| battery               | Li-Ion |
| maximal light output  | 700 lm |
| maximal beam distance | 45 m   |

### OTHER PARAMETERS

| Parameter                               | Value                                                            |
|-----------------------------------------|------------------------------------------------------------------|
| batteries included                      | yes                                                              |
| rechargeable                            | yes                                                              |
| battery type                            | 1 200 mAh/3.7 V                                                  |
| focus                                   | no                                                               |
| waterproof                              | no                                                               |
| material                                | ABS plastic + rubber                                             |
| runtime                                 | 3-6 hrs                                                          |
| runtime detail                          | SMD LED BOOST - 30 s, SMD LED 100 % - 3 hrs, LED 100% - 6 hrs    |
| recharge time                           | 2 hrs                                                            |
| impact resistance                       | no                                                               |
| colour                                  | green-black                                                      |
| light output                            | SMD LED BOOST - 700 lm, SMD LED 100 % - 350 lm, LED 100% - 50 lm |
| source of light                         | SMD LED + LED                                                    |
| beam distance                           | SMD LED BOOST - 40 m, SMD LED 100 % - 30 m, LED 100% - 45 m      |
| number of lighting modes                | 3                                                                |
| power connector type                    | USB C                                                            |
| LED indication of the accumulator state | yes                                                              |
| lighting modes                          | SMD LED BOOST, SMD LED 100 %, LED 100 %                          |
| LED indication of the charging process  | yes                                                              |
| accessories                             | USB cable                                                        |
| special features                        | battery protection function, light BOOST function                |
| features                                | 2x magnet                                                        |
| weight                                  | 100 g                                                            |
| warranty period                         | 2 years                                                          |

|            |                  |
|------------|------------------|
| dimensions | 37 x 14 x 240 mm |
| packaging  | 1 pc, box        |
| brand      | EMOS             |
